

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/tau-20-1006">http://dx.doi.org/10.21037/tau-20-1006</a> .	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place - if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Anonymous information of each participant, including demographic characteristics, intraoperative parameters, perioperative data and follow-up data, will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or outcomes data may be updated over time.
7	To whom will you share the data?	Urologist and particular surgeons who are major in reconstruction surgery.
8	For what type of analysis or purpose?	To present our initial experience of real-time surgical navigation by 3D virtual reconstruction models in RALP and evaluate its safety and effectiveness by comparing perioperative data and outcomes between the navigation and non-navigation groups.
9	How or where can the data/documents be obtained?	E-mails could be sent to the address below to obtain the shared data. pineneedle@sina.com.
10	Any other restrictions?	No
